

Randolph Y. Liang

randy8@vt.edu — (571) 296-6786 — github.com/randy8

EDUCATION **Virginia Tech** Aug 2014 — Dec 2018
B.S. in **Computer Science** — Minor in Mathematics
GPA: 3.14

Relevant Coursework: Data Structures and Algorithms, Computer Systems, iOS Mobile Software Development, Cryptography (Symmetric)

EMPLOYMENT **Leidos, Inc.** — *Software Engineer Co-Op Intern* May 2017 — Dec 2017

- Learned branching strategies (Git) and team-specific conventions.
- Spearheaded the development of a mis-attributable network using Vagrant to automatically setup/deploy VM nodes, developed a configuration server in C#, and integrated a multilingual XMPP Android chat client.
- Developed a Python GUI using Tkinter that dumps user input into a JSON file and feeds it to Scrappy spiders to obtain OSM map data from online sources.

PROJECTS **Extensible Shell** — *C*
Process management for various UNIX commands, job control, and plugin support. Takes line-by-line input from the command line.

Memory Manager — *Java*
Memory management package for storing records of songs/artists from a million-song database that uses a hash table to store handles. Implemented a range query using a 2-3+ tree to retrieve songs written by specific artists.

randyliang.com — *HTML/CSS, JavaScript*
Personal website with miscellaneous information such as résumé, project, etc.

Lyric Bot — *Python*
Twitter bot that scrapes lyrics from the web and tweets them every 30 minutes.

Custom Chipotle Order — *XML, Java*
Android application that relies on user input to determine cost and nutrition for a Chipotle order using local prices/tax rates.

SKILLS **Proficient:** Java, Python, Git, GNU/Linux (Ubuntu), macOS
Familiar: C, C++, Swift, Ruby on Rails, \LaTeX , Eclipse, Wireshark
